

## Revision list - Year 11 mock exams

Paper 1	Content	Revised?
Hazards	Distribution of earthquakes and volcanoes	
Hazards	Constructive, destructive and conservative margins and their associated landforms	
Hazards	Case study - Italy and Nepal earthquakes	
Hazards	Reasons people live in hazard zones	
Hazards	Prediction, protection and planning for earthquakes and volcanoes	
Hazards	Typhoon Haiyan case study	
Hazards	Prediction, protection and planning for tropical storms	
Climate change	Evidence of climate change	
Climate change	Mitigation and adaptation techniques	
Ecosystems	Food chains, food webs and the nutrient cycle	
Ecosystems	Tropical rainforests - characteristics, biodiversity and adaptations	
Ecosystems	Case study - Brazil - causes and impacts of deforestation	
Ecosystems	Hot deserts - characteristics, biodiversity and adaptations	
Ecosystems	Case study - Western desert - opportunities and challenges	
Coasts	Processes - erosion/deposition/ transport including longshore drift	
Coasts	Headlands and bays, wave cut platforms, cliffs and caves, arches stacks and stumps	
Coasts	Depositional landforms - beaches, spits, bars, sand dunes	
Coasts	Hard and soft engineering	
Coasts	Case study - Medmerry Coastal realignment scheme.	
Rivers	Processes - erosion, deposition and transport	
Rivers	Interlocking spurs, waterfalls and gorges	
Rivers	Meanders and ox bow lakes	
Rivers	Levees and flood plains	
Rivers	Case study - River Severn	
Rivers	Causes of flooding - human and physical	
Rivers	Hard and soft engineering	
Rivers	Case study - Jubilee river management scheme	
Skills	Calculating mean	
Skills	Measuring distance on a map	
Skills	Identifying relief on a map	

Paper 2	Content	Revised?
Urban issues	Population, urbanisation (reasons for urbanisation), megacities	
Urban issues	Case study: Lagos - Location and importance	
Urban issues	Case study: Lagos - Causes of growth (push and pull factors)	
Urban issues	Case study: Lagos - Challenges and opportunities in Lagos (SEE) Focus on environmental issues	
Urban issues	UK population - distribution, why are cities growing?	
Urban issues	Case study: Manchester - Location and importance	
Urban issues	Case study: Manchester - Challenges and opportunities (SEE) Focus on urban greening.	
Urban issues	Case study: Manchester - Regeneration in East Manchester	
Urban issues	Urban sustainability - How can cities be more sustainable? Transport, water, energy	
Development	Classification of countries (LIC, NEE, HIC) and their distribution	
Development	Measures of development	
Development	Consequences of uneven development	
Development	Reducing the development gap - strategies and effectiveness	
CEW	Nigeria: Location, population and importance	
CEW	Nigeria: economy - changes over time. Sectors and trade. Positive multiplier effect.	
CEW	Nigeria: Shell TNC case study	
CEW	UK: How has the economy changed? Globalisation, structure, deindustrialisation, post industrial economy	
CEW	UK: Improving transport infrastructure	
CEW	UK: UK's place in the world, global links in trade	
Resources	Changing demand for food in the UK, Food miles, carbon footprints. Challenges and opportunities.	
Resources	Energy resources in the UK - Types, energy mix, economic issues of producing energy	
Resources	Energy Q6 - Link between energy and economic development	
Resources	Energy Q6 - Strategies to increase supply - Extracting fossil fuels. Advantages and disadvantages of fracking	
Skills	Reading a map - 6 figure grid references	
Skills	Measuring distances on maps	
Skills	Determining the direction a photograph has been taken on a map	
Skills	Calculating median	
Skills	Percentage change	
Skills	Reading graphs
